

Herbal MSM

Herbal MSM is a phenomenal formula that I both use and recommend. In a concise piece of literature I am attempting to convey what rightly belongs in volumes. MSM is a nutritional sulfur-based mineral and is one of the prominent compounds found in our bodies - only water and sodium being found in greater abundance. MSM is not to be confused with chemically reproduced sulfurs such as sulfas, sulfides and sulfates, it is night and day different. Individuals will often have allergies to such chemical substances listed above. According to research MSM is no more toxic than water. The MSM that I speak of is a naturally occurring sulfur compound that originates in the ocean and plays a major roll in all healthy body functions.

How does the MSM get from the ocean to us?

Quick Science 101: the ocean kicks moisture into the air - moisture becomes rain - rain travels. The rainwater brings this essential nutrient to us. This mineral is absorbed through the tissues and fibers of all plants each time it rains.

In my **Herbal MSM** formula, the MSM itself is balanced with other complimenting herbs/plants to help us receive the maximum results and benefits.

And what exactly are these benefits?

Herbal MSM acts as a flexible bond between connective tissues. It is essential for joint function and mobilization, proper enzyme activity, hormone balance, soft and supple skin, and healthy immune systems.

It helps with:

- Skin problems
 - Rash
 - Itching
 - Leathery feeling
 - Split/cracked/bleeding
 - Wrinkles!
- Asthma
- Emphysema
- Lung dysfunction
- Migraine headaches
- Sinusitis
- Fibromyalgia
- Lupus
- Interstitial Cystitis
- Arthritis
 - Rheumatoid
 - Osteo...
- Carpel Tunnel Syndrome
- Diabetes Type I & II
- Scleroderma
- Stomach & digestive tract problems
- Diverticulitis
- Crohn's disease
- Allergies
 - Pollen
 - Pet
 - Food, etc
- Ulcerative Colitis
- Heartburn
- Hyperacidity
- Circulation
- Cell osmosis & absorption

...Just to name a few!

Without it we get wrinkles, cracking skin, scar tissue, hardening of the arteries, emphysema... you know, not good stuff.

Just a little more detail on a few of the points mentioned;

Emphysema - **Herbal MSM** provides the increased oxygen absorption in the membranes faster and easier. You will often notice immediate relief. In just weeks some can be off of their oxygen and walking again. Within a few months many are back to work.

Women's monthly cycle - **Herbal MSM** helps the glands work properly thus alleviating headaches, cramps, nausea, even hot flashes. Sorry ladies, you won't be able to track your cycle by those terrible symptoms.

Migraine Headaches - **Herbal MSM** can give you the relief you think is nowhere to be found. When taken over a period of time I've seen them cured.

Diabetes Type I and II - Diabetes (actually, almost any disease) is a symptom of tissue and/or organ starvation or malnutrition. Provide the body with the proper nutritional support and your body will be able to heal itself. **Herbal MSM** when taken faithfully will help heal the weakened and depleted areas of the body, thus your blood sugar will begin to regulate itself. Diabetics who have used needles for 6+ years have seen these results in as little as 6 months.

As you can see **Herbal MSM** helps with a multitude of chronic health problems.

You may find very fast and noticeable results with some of your problems, but others that perhaps are deeper seated may need more healing time. Please remember each of us is unique. Give the formula time to build up in your system and begin the healing process. Doing a good thing for yourself can never be bad and let me tell you **Herbal MSM** is a very good thing.
